Junjie Yu

YuJunjie-yjj@sjtu.edu.cn | junjieyu28.github.io | JunjieYu28

EDUCATION

Shanghai Jiao Tong University *Sep 2023 – Present*
BEng in Artificial Intelligence · Zhiyuan Honors Program *Shanghai, China*
Average Score: 89.34 / 100 · Rank: 35 / 98

PUBLICATIONS & TECHNICAL REPORTS

- No Second Run: Does RSI Stop at Frontier Pre-training?
  SII & Xinxu AI. *Technical report*, 2026. Contributor: **Junjie Yu**.
  801-30B-A3B Base+SFT: 38.90% on CyberGym (Table 9; Claude Code; 2-hour limit per attempt).
- AcademiClaw: When Students Set Challenges for AI Agents.
  Junjie Yu, Pengrui Lu, Weiye Si, et al. *arXiv preprint*, 2026.
  80 undergraduate-sourced, long-horizon academic tasks across 25+ domains for evaluating OpenClaw agents.
- Speed by Simplicity: A Single-Stream Architecture for Fast Audio-Video Generative Foundation Model.
  arXiv preprint, 2026.
  Pure single-stream Transformer for joint audio-video generation; 80% win rate over Ovi 1.1 and 60.9% over LTX 2.3.

RESEARCH EXPERIENCE

Research Internship *Dec 2025 – Present*
SJTU & SII – GAIR Lab · Mentor: Pengfei Liu *Shanghai, China*

- Independently owned cybersecurity capability development for **801-30B-A3B**: designed tasks using ARVO environments excluding those used by CyberGym, and conducted model training and validation.
- Built a trajectory collection pipeline supporting **1,000+ concurrent rollouts** for cybersecurity training.
- Developing a vulnerability-driven environment and task synthesis pipeline to scale cybersecurity training.
- First author & Project leader of **AcademiClaw**, a benchmark for OpenClaw.
- Contributed to **daVinci-MagiHuman** and built digital human meeting and live-streaming applications.
- Participated in the development of **Wesay** (a speech recognition app). [Private Repo]

Research Internship *Mar 2025 – Dec 2025*
SJTU – Artificial Intelligence Institute, DeepVision Lab · Mentor: Wei Shen *Shanghai, China*

- Researched **multimodal large language models** and **visual token pruning**.
- Participated in training a GUI recognition model for future GUI Agent (collaborative project with Huawei). Responsible for data synthesis, annotation, and cleaning.

PROJECTS

AcademiClaw | The first academic-level benchmark for OpenClaw sourced from undergraduate students. *Python*

Paper-RAG | An intent-aware paper recommendation and research assistant powered by RAG. *Python*

GUI-Project | Data preparation for training a GUI recognition model for future GUI Agent. *Python*

ViT-on-Image-Classification | ViT on image classification, esp. small-scale datasets (CIFAR-10). *Jupyter Notebook*

HONORS & AWARDS

Zhiyuan Honors Scholarship 2023, 2024, 2025
Award for top students majoring in science.

Undergraduate Excellence Scholarship 2024, 2025
Awarded to students with outstanding comprehensive evaluation rankings.

MCM/ICM Honorable Mention 2024
Mathematical Contest in Modeling, administered by COMAP.

RESEARCH INTERESTS

Cyber Security, Large Language Model, AI Safety, Agent, AI for Games
Current Focus: Cyber Security & LLM

SKILLS

Programming Python, C++
Agent Codex, Claude Code, OpenClaw
Tools Git, Linux, LaTeX, Docker, PyTorch
Languages Chinese (native), English (fluent)
