Junjie Yu

YuJunjie-yjj@sjtu.edu.cn | junjieyu28.github.io | JunjieYu28

EDUCATION

Shanghai Jiao Tong University *Sep 2023 – Present*
BEng in Artificial Intelligence · Zhiyuan Honors Program *Shanghai, China*
Average Score: 89.18 / 100 · Rank: 34 / 98

PUBLICATIONS

- AcademiClaw: When Students Set Challenges for AI Agents.
  Junjie Yu, Pengrui Lu, Weiye Si, et al. *arXiv preprint*, 2026.
  The first academic-level benchmark for OpenClaw sourced directly from undergraduate students, comprising 80 complex tasks across 25+ domains to evaluate academic capabilities and contribute to the OpenClaw community.
- Speed by Simplicity: A Single-Stream Architecture for Fast Audio-Video Generative Foundation Model.
  arXiv preprint, 2026.
  The first open-source foundation model to achieve joint audio-video generation using a pure single-stream Transformer architecture, attaining 80% win rate over Ovi 1.1 and 60.9% over LTX 2.3 in human evaluation, reaching SOTA in open-source audio-video generation.

RESEARCH EXPERIENCE

Research Internship *Dec 2025 – Present*
SJTU & SII – GAIR Lab · Mentor: Pengfei Liu *Shanghai, China*

- First author & Project leader of **AcademiClaw**, a benchmark for OpenClaw.
- Participant in **davinci-magihuman**.
- Built downstream applications based on davinci-magihuman, including digital human meetings and digital human live streaming. [Soon Public]
- Participated in the development of **Wesay** (a speech recognition app). [Private Repo]

Research Internship *Mar 2025 – Dec 2025*
SJTU – Artificial Intelligence Institute, DeepVision Lab · Mentor: Wei Shen *Shanghai, China*

- Conducting research on **MultiModal Large Language Model**.
- Participated in training a GUI recognition model for future GUI Agent (collaborative project with Huawei). Responsible for data synthesis, annotation, and cleaning.
- Conducting research on **visual token pruning** for multimodal models.

Summer Research Internship *Jul 2024 – Sep 2024*
SJTU – Artificial Intelligence Institute, DeepVision Lab · Mentor: Wei Shen *Shanghai, China*

- Explored **Computer Vision** fundamentals; read research papers and reproduced basic CV algorithms.

PROJECTS

AcademiClaw | The first academic-level benchmark for OpenClaw sourced from undergraduate students. *Python*

Paper-RAG | An intent-aware paper recommendation and research assistant powered by RAG. *Python*

GUI-Project | Data preparation for training a GUI recognition model for future GUI Agent. *Python*

ViT-on-Image-Classification | ViT on image classification, esp. small-scale datasets (CIFAR-10). *Jupyter Notebook*

HONORS & AWARDS

Zhiyuan Honors Scholarship 2024, 2025
Award for top students majoring in science.

Undergraduate Excellence Scholarship 2024, 2025
Awarded to students with outstanding comprehensive evaluation rankings.

RESEARCH INTERESTS

Agent, Multimodal, Large Language Model, AI for Games **Current Focus:** Agent & Multimodal

SKILLS

Programming Python, C++
Agent Claude Code, Codex, Cursor, OpenClaw
Tools Git, Linux, LaTeX, Docker, PyTorch
Languages Chinese (native), English (fluent)
